## ATN X-SPOTTER

ATN's new "X-Spotter" line of digital vision spotting scopes represent the latest in electro-optical technology. Recent advancements in low light HD digital sensor technology have allowed us to create a new line of night vision riflescopes that provides the user with superior clarity and a high light gain at a minimal cost. Each system features a digital menu that gives you a variety of options and adjustments allowing you to customize your system. 800x600 color display giving you a sharp color reticle every time. The X-Spotter also features high-power digital zoom capabilities. These scopes can increase the magnification from 20x to 100x.

## DESCRIPTION

The Smart X-Spotter is the first ever true HD digital, intelligent spotting scope. Utilizing the latest Obsidian II Core, the X-Spotter boasts an array of sensors, a powerful 1Ghz processor, and an impressive wired (USB, SD card, HDMI) and wireless (WiFi, Bluetooth) connectivity.

A 80 mm crystal clear lens means you can see objects at incredible distances all while recording to your memory card for sharing with friends or family later. True HD resolution provides you unparalleled performance. Built-in WiFi lets you stream to your tablet or phone giving you a viewfinder like never before. View your photos/videos remotely without ever touching the X-Spotter.

So when you are ready to take a step up to a true technological marvel - take the X-Spotter for a ride.
